Summer Internships in China 2026: Fully Funded Programs Open

Students in engineering and architecture are invited to apply for prestigious summer internships at leading universities in China. The 2026 programs offer a unique opportunity to gain international research experience, work in advanced laboratories, and strengthen academic portfolios.

1. GRIPS Summer Research Internship 2026
   A global research internship in the Yangtze River Delta region, including the

development of engineering projects and visits to major technology enterprises.
The program is designed for high-achieving students and provides full coverage of airfare and accommodation expenses.
Application deadline: March 1, 2026 (23:59 Beijing time).
Details and application:
https://scholarshipscorner.website/grips-summer-research-internship/

2. USTC FuSEP Summer Research Program 2026 (Hefei)
   The program is hosted by the University of Science and Technology of China and involves participation in advanced research projects.
   Participants receive full funding under the USTC Fellowship (tuition, accommodation, meals), with a possible travel grant for airfare.
   Program dates: June 22 – July 30, 2026.
   Application deadline: March 22, 2026.
   Details and application:
   fusep.ustc.edu
3. Westlake University Summer Internship 2026 (Hangzhou)
   An intensive research program at one of China's most modern research universities, designed for senior undergraduate and master's students.
   The program includes free accommodation, no registration fees, and a stipend of 2,475 RMB.
   Application deadline: March 31, 2026 (23:59 Beijing time).
   Details and application:
   westlake.edu.cn (Summer Internship section)

Applicants are advised to review the requirements on the official websites of the respective programs and prepare the necessary documents within the specified deadlines.

For further information, students may contact the International Office of IEC (KazGASA): Main Academic Building, 5th floor, office 506.

We encourage students to take advantage of this opportunity to complete an internship at one of Asia's leading research centers and gain valuable international experience in summer 2026.

Almaty, Bostandyk District, 050043, Ryskulbekov Street, 28
